Notes to the interim condensed consolidated financial statements

9. Nature of Operations and Going Concern

Vangold Mining Corp. (the “Company” or “Vangold”) is in the business of the acquisition, exploration and evaluation of mining assets. The Company currently holds exploration and evaluation asset interests located in Canada and Mexico.

The head office and registered records of the Company is located at 2820 – 200 Granville Street, Vancouver, British Columbia, V6C 1S4. Vangold is a publicly listed company incorporated under the *Business Corporations Act* of British Columbia and is listed on the TSX Venture Exchange (“TSX.V”) under the symbol “VGLD”.

These interim condensed consolidated financial statements have been prepared on the going concern basis, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. As at March 31, 2020, the Company has no source of recurring revenue, generates negative cash flows from operating activities, and has an accumulated deficit of \$47,604,953 (December 31, 2019 - \$47,407,775). These factors raise significant doubt about the Company’s ability to continue as a going concern. The continued operations of the Company are dependent on its ability to generate future cash flows or obtain additional financing. Management is of the opinion that sufficient working capital will be obtained from external financing to meet the Company’s liabilities and commitments as they become due, although there is a risk that additional financing will not be available on a timely basis or on terms acceptable to the Company.

These interim condensed consolidated financial statements do not reflect the adjustments to the carrying values of assets and liabilities and the reported expenses and consolidated statement of financial position classifications that would be necessary were the going concern assumption inappropriate, and these adjustments could be material.

The recent outbreak of the novel coronavirus COVID-19, which was declared a pandemic by the World Health Organization on March 11, 2020, has led to adverse impacts on the Canadian and global economies, disruptions of financial markets, and created uncertainty regarding potential impacts to the Company’s supply chain and operations. The COVID-19 pandemic has impacted and could further impact the Company’s operations and the operations of the Company’s suppliers and vendors as a result of quarantines, facility closures, and travel and logistics restrictions. The extent to which the COVID-19 pandemic impacts the Company’s business, results of operations and financial condition will depend on future developments, which are highly uncertain and cannot be predicted, including, but not limited to the duration, spread, severity, impact of the COVID-19 pandemic, the effects of the COVID-19 pandemic on the Company’s suppliers and vendors, the remedial actions and stimulus measures adopted by local and federal governments, and to what extent normal economic and operating conditions can resume. The management team is closely following the progression of COVID-19 and its potential impact on the Company. Even after the COVID-19 pandemic has subsided, the Company may experience adverse impacts to its business as a result of any economic recession or depression that has occurred or may occur in the future. Therefore, the Company cannot reasonably estimate the impact at this time on our business, liquidity, capital resources and financial results.

2. Significant Accounting Policies

(a) Statement of Compliance

These interim condensed consolidated financial statements have been prepared in accordance with International Financial Reporting Standards applicable to interim financial information, as outlined in International Accounting Standard 34 *Interim Financial Reporting* and using the accounting policies consistent with those in the audited consolidated financial statements as at December 31, 2019 and for the year then ended .

These interim condensed consolidated financial statements do not include all disclosures normally provided in annual consolidated financial statements and should be read in conjunction with the annual consolidated financial statements as at December 31, 2019 and for the year then ended . Interim results are not necessarily indicative of the results expected for the fiscal year.

2. Significant Accounting Policies (continued)

(b) Approval of the Interim Condensed Consolidated Financial Statements

The interim condensed consolidated financial statements of the Company for the three months ended March 31, 2020 were reviewed by the Audit Committee and approved and authorized for issue by the Board of Directors on May 29, 2020.

(c) Basis of Measurement and Principles of Consolidation

These interim condensed consolidated financial statements have been prepared using the historical cost basis, except for financial instruments classified as fair value through profit or loss, and available-for-sale, which are stated at fair value. In addition, these interim condensed consolidated financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

These interim condensed consolidated financial statements include the accounts of the Company and the following subsidiaries:

Subsidiary	Location	Ownership	
		Interest	Status
CanMex Silver S.A. de C.V. ("CanMex")	Mexico	100%	Consolidated
Obras Mineras El Pinguico S.A. de C.V. ("Obras")	Mexico	100%	Consolidated

Subsidiaries are those entities that Vangold controls by having the power to govern the financial and operating policies. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether Vangold controls another entity. Subsidiaries are fully consolidated from the date on which control is obtained by Vangold and are deconsolidated from the date that control ceases.

All intercompany transactions, balances, and unrealized gains and losses are eliminated on consolidation.

(d) New Standards and Interpretations not yet Adopted

Certain new accounting standards and interpretations have been published that are not mandatory for the current period and have not been early-adopted. These standards are not expected to have a material impact to the Company in the current or future reporting periods and have not been discussed or presented.

4. Exploration and Evaluation Assets (continued)

Mexican Silver Belt Property, Mexico

On April 28, 2017, the Company entered into asset acquisition agreements for seven mining claims strategically situated within the high grade Mexican Silver Belt and all within close proximity to the Company's operations office in Guanajuato, Mexico. Under the terms of the agreements, the Company paid \$10,000 and issued 3,125,000 common shares with a fair value of \$343,750. The Company also recognized additional acquisition costs of \$6,250. The vendors retain a 2.5% net smelter returns ("NSR") royalty of which 1.25% (one-half) may be repurchased for \$500,000.

El Pinguico Properties, Guanajuato State, Mexico

On April 27, 2017, the Company completed an acquisition of a 100% interest in the El Pinguico property, located in Guanajuato State, Mexico. Under the terms of the agreement, the Company paid consideration of \$136,240 (US\$100,000) and issued 5,000,000 common shares with a fair value of \$900,000. The Company also issued 662,500 common shares with a fair value of \$119,250 as a finder's fee. The Company also recognized additional acquisition costs of \$24,000. The vendors retain a 4% NSR royalty and a 15% net profits interest ("NPI") on minerals recovered from an existing surface and underground stockpile of mineralized rock and a 3% NSR royalty and 5% NPI on all newly mined mineralization. The Company may repurchase 1% (one-third) of the NSR royalty on all newly mined mineralization for US\$1,000,000.

In October 2017, the Company and OMP executed a Surface Land Purchase Agreement with two private landowners for 302 hectares. The surface land includes the Company's El Pinguico property and provides significant land area for mining infrastructure, development and construction. Under the terms of the agreement, the Company has the option to purchase the property in two years and is committed to pay two annual instalments of \$4,500 with a final payment of \$65,000 on the third anniversary.

In February 2020, the Company signed a Surface Land Use Agreement with a local landowner and a Surface Land Access Agreement for the mine with the Ejido Calderones, which allows for unrestricted road access for exploration and mining equipment and personnel to El Pinguico through the community of Calderones. The land access agreement is for a period of 15 years. Under the terms of the agreement, the Company made an initial payment of the equivalent of \$7,100 and will make annual payments of the equivalent of approximately \$2,100. The land use agreement is a two-year term with option to purchase the land. Under the terms of the agreement, the Company made an initial payment of the equivalent of \$1,700 and will make annual payments of the equivalent of approximately \$140.

Rossland Properties, British Columbia, Canada

South Belt

At December 31, 2019, the Company holds a 25% interest in certain mineral claims within the historic Rossland gold camp in southeastern British Columbia.

The Company entered into an Option and Joint Venture Agreement with a private company, Rossland Resources Inc. ("RRI"), that entitled RRI to earn up to a 100% interest in the property. RRI has fulfilled its commitments to earn a 75% interest, and its option to earn a final 25% interest expired on June 1, 2013. In addition, RRI granted the Company a 1.5% NSR royalty on the claims. RRI can purchase the NSR royalty granted to the Company for a total of \$1,500,000 at any time. RRI is operator of the project. Through the option period, the Company received a total of 1,300,000 shares of RRI, which were impaired to a carrying value of \$nil in prior years.

4. Exploration and Evaluation Assets (continued)

Rossland Properties, British Columbia, Canada (continued)

Evening Star Property

The Company owns a 100% interest in the surface rights and a 50% interest in the mineral rights comprising the Evening Star Property. On July 1, 2014, the Company issued a mortgage on the Evening Star Property in the amount of \$50,000. The mortgage was discharged when the short-term debt was repaid in January 2018. During the year ended December 31, 2018, the Company began the process to relinquish the interests in the Rossland properties as the Company intends to focus operations on the Mexican Silver Belt and El Pinguico properties. As a result, the Company recognized an impairment of \$9,001 during the year ended December 31, 2018.

5. Advances Receivable

During the year ended December 31, 2018, the Company entered into a Letter of Intent (“LOI”) whereby the Company agreed to acquire all of the issued and outstanding shares of Aventura Gold Ltd. (“Aventura”), a private company that holds an option to acquire 100% of the rights, title and interest to a gold property in Guyana (“Tassawini”). As consideration for all of the issued and outstanding shares of Aventura, the Company agreed to make cash payments totaling US\$6,000,000. During the year ended December 31, 2019, the Company elected not to pursue the acquisition of Aventura and terminated its LOI.

As at December 31, 2019, the Company had made refundable advances totaling \$238,048 and incurred expenditures totaling approximately \$12,000 in connection with the acquisition of Aventura. Subsequent to December 31, 2019, the Company reached an agreement with Astor Holdings Inc. (“Astor”), a Guyana corporation, and Shooting Star Acquisition Corp. (“Star”), a capital pool company listed for trading on the TSX.V, whereby the Company has assigned all rights, title and interest in the draft National Instrument 43-101 *Standards for Disclosure of Mineral Projects* technical report commissioned by the Company on the Tassawini gold project in Guyana, in consideration for Astor and Star agreeing to pay the Company a total of \$250,000, consisting of the refundable advances owed to the Company and expenditures incurred by the Company.

The \$250,000 consideration will be paid as follows:

- 1) An initial payment of \$25,000 cash and 400,000 common shares of Star at a deemed price of \$0.25 per share upon closing of the Star’s Qualifying Transaction; and
- 2) A second payment of \$50,000 cash and \$75,000 in Star shares (based on Star’s ten-day volume weighted average price) anticipated to occur upon Star’s receipt of an environmental impact statement on the Tassawini project.

9. Stock Options

The Company's Board of Directors approved a 20% fixed stock incentive plan in accordance with the policies of the TSX.V. Subject to TSX.V and shareholder approvals, the aggregate number of common shares that may be reserved, allotted and issued pursuant to the plan shall not exceed 3,392,307 common shares, less the aggregate number of common shares then reserved for issuance pursuant to any other share compensation arrangement. At its annual general meeting held April 17, 2018, the Company's shareholders approved an increase to the maximum amount of options that can be granted pursuant to this stock option plan to 6,175,673 common shares being 20% of the Company's issued and outstanding shares at the time of the meeting. The Board of Directors is authorized to grant options under this plan to directors, officers, consultants or employees.

The maximum number of options that may be granted to any one person in any 12-month period must not exceed 5% of the common shares outstanding at the time of the grant or 2% if the optionee is a consultant or employed in an investor relations capacity. The plan states that the Board of Directors shall determine the manner in which the options shall vest and become exercisable. However, options granted to consultants performing investor relations activities shall vest over a minimum of 12 months with no more than one-quarter of such options vesting in any three-month period. The plan requires that the stock options may have a term not exceeding ten years. In the event of any option forfeiture, any expense recognized to date on unvested options is reversed in the period in which the forfeiture occurs.

On December 6, 2019, the shareholders of the Company approved at its annual general meeting a new 10% rolling stock option plan in accordance with the policies of the TSX.V pursuant to which the number of shares issuable under the plan shall not exceed, on a rolling basis, 10% of the Company's issued and outstanding shares at the time of grant, the approval for which will be sought at the meeting.

9. Stock Options (continued)

The number of shares subject to each option is determined by the Board of Directors or, if appointed, by a special committee of directors appointed from time to time by the Board of Directors provided, at the time the options are granted, that:

- a) The number of shares subject to option, in the aggregate, shall not exceed 10% of the Company's then issued shares;
- b) No more than 5% of the issued shares of the Company may be granted to any one optionee in any 12-month period (unless the Company has obtained disinterested shareholder approval);
- c) No more than 2% of the issued shares of the Company may be granted to any one consultant in any 12-month period;
- d) No more than an aggregate 2% of the issued shares of the Company may be granted to persons employed to provide investor relations activities in any 12-month period; and
- e) The options shall be subject to such vesting requirements, as determined by the Board of Directors provided that options granted to consultants performing investor relations activities must vest in stages over at least 12 months with no more than one-quarter of the options vesting in any three-month period.

The exercise price of the options cannot be set at less than the last closing price of the Company's shares on the stock exchange on which the shares of the Company are then listed before the date on which the options are granted by the Company, less the maximum allowable discount from market as may be permitted under the policies of such exchange, if any, or such other minimum exercise price as may be required by such exchange. The options may be exercisable for a period of up to 10 years.

11. Fair Value Measurement

Fair Value

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;

Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and

Level 3 – Inputs that are not based on observable market data.

The fair value of cash is measured based on Level 1 inputs of the fair value hierarchy.

Financial Risk Management

The Company's activities expose it to a variety of financial risks including credit risk, currency risk, liquidity risk and market price risk.

Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The financial instrument that potentially subjects the Company to credit risk consists of cash. The Company deposits its cash with high credit quality major Canadian financial institutions, as determined by ratings agencies. The carrying amount of financial assets recorded in the interim condensed consolidated financial statements, net of any allowances for losses, represents the maximum exposure to credit risk. Amounts receivable comprises Goods & Services Tax receivable from the Government of Canada.

Liquidity Risk

Liquidity risk is the risk that an entity will encounter difficulty in raising funds to meet commitments associated with financial instruments. The Company attempts to manage liquidity risk by maintaining sufficient cash balances. Liquidity requirements are managed based on expected cash flows to ensure that there is sufficient capital in order to meet short-term obligations. As of March 31, 2020, the Company had cash of \$328,228 to settle current liabilities of \$282,223. Further information relating to liquidity risk is disclosed in Note 1 of these interim condensed consolidated financial statements.

Interest Rate Risk

Interest rate risk is the risk that the fair value or the future cash flows of a financial instrument will fluctuate due to changes in market interest rates. The Company's cash is held mainly in a bank account at a Canadian bank. Fluctuations in market rates do not have a significant impact on estimated fair values as of March 31, 2020.

The Company's interest rate risk principally arises from the interest rate impact on interest charged on its short-term debt. The Company's short-term debt is subject to fixed interest rates, thus any change in interest rates would not affect its short-term debt balances.

Foreign Currency Risk

The Company is exposed to foreign currency risk to the extent that monetary assets and liabilities held by the Company are not denominated in Canadian dollars. As at March 31, 2020, the Company is exposed to currency risk, as some transactions and balances are denominated in Mexican pesos and United States dollars.

Price Risk

The Company is exposed to price risk with respect to commodity and equity prices. Equity price risk is defined as the potential adverse impact on the Company's earnings due to movements in individual equity prices or general movements in the level of the stock market. Commodity price risk is defined as the potential adverse impact on earnings and economic value due to commodity price movements and volatilities. The Company closely monitors commodity prices of gold, individual equity movements and the stock market to determine the appropriate course of action to be taken by the Company.

12. Management of Capital

The Company considers its capital to consist of its share capital, equity reserves and deficit. The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support exploration and development of exploration and evaluation assets. The Board of Directors has not established quantitative capital structure criteria management, but will review on a regular basis the capital structure of the Company to ensure its appropriateness to the stage of development of the business.

The Company's objectives when managing capital are:

- To maintain and safeguard its accumulated capital in order to provide an adequate return to shareholders by maintaining a sufficient level of funds, to support continued evaluation and maintenance at the Company's existing properties, and to acquire, explore and develop other precious and base metal deposits;
- To invest cash on hand in highly liquid and highly rated financial instruments with high credit quality issuers, thereby minimizing the risk and loss of principal; and
- To obtain the necessary financing to complete exploration and development of its properties, if and when it is required.

The properties in which the Company currently holds an interest are in the exploration stage and the Company is dependent on external financing to fund its activities in order to carry out planned exploration and pay for administrative costs. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

In addition, the Company may issue new equity, incur additional debt, option its exploration and evaluation assets for cash and/or expenditure commitments from optionees, enter into joint venture arrangements or dispose of certain assets. When applicable, the Company's investment policy is to hold cash in interest-bearing accounts at high credit quality financial institutions to maximize liquidity. In order to maximize ongoing development efforts, the Company does not pay dividends.

There were no changes in the Company's approach to capital management during the three months ended March 31, 2020 compared to the year ended December 31, 2019. The Company is not subject to externally imposed capital requirements.

13. Commitments and Contingent Liabilities

During the year ended December 31, 2014, the Company negotiated debt settlements with two creditors. An agreement was reached to settle payables of \$282,007 with the two creditors for a total of \$70,501, resulting in a gain on settlement of payables of \$211,506. The Company must pay the \$70,501 upon completion of a financing of at least \$2,500,000.

Once a financing of at least \$2,500,000 is completed, the Company must pay \$49,867 of the negotiated amount within five days to one creditor and \$20,634 within 45 days to the other creditor. If either payment is not completed by the deadline, the debt settlement agreements are nullified and the Company must pay the initial payable amounts to each of the creditors. The Company must also comply with reasonable information requests from the creditors on a timely basis, otherwise the debt settlement agreements are nullified. During the year ended December 31, 2019, the Company negotiated to settle the above \$49,867 with the first lender for a total payment of \$20,000 resulting in a gain on settlement of \$29,867. As of March 31, 2020, the balance owing related to the second vendor of \$20,634 (December 31, 2019 - \$20,634) remains in accounts payable and accrued liabilities. All requests have been met and the agreements are in good standing.

13. Commitments and Contingent Liabilities (continued)

During the year ended December 31, 2019, the Company received a letter of claim whereby an investor who took part of a private placement of the Company claims the right of restitution of up to \$119,000 claiming that he had entered into an agreement with the Company whereby if the Company issued a private placement at a lower price he would have a right of restitution. Management believes there is no basis for the claim.

14. Subsequent Event

Since December 31, 2019, the outbreak of the novel strain of coronavirus, specifically identified as COVID-19, has resulted in governments worldwide enacting emergency measures to combat the spread of the virus. These measures, which include the implementation of travel bans, self-imposed quarantine periods and physical distancing, have caused material disruption to business globally resulting in an economic slowdown. Global equity markets have experienced significant volatility and weakness. The duration and impact of the COVID-19 outbreak is unknown at this time, as is the efficacy of the government and central bank interventions. It is not possible to reliably estimate the length and severity of these developments and the impact on the financial results and condition of the Company in future periods. The Company has determined that these events are non-adjusting subsequent events. Accordingly, the financial position and results of operations as at March 31, 2020 and for the period then ended have not been adjusted to reflect their impact.
